Full-Stack Developer | UX/UI Designer

Work Experience

Full-Stack Developer

CSC Complex Center

Period: 08/09/2025 - 10/10/2026

- Designed, developed, and maintained end-to-end web applications (System Analysis, UX/UI, Frontend & Backend).
- Built and integrated various APIs, and managed source code with Git/GitHub.
- Deployed systems to production servers and managed processes with PM2.
- Developed more than 10 projects, such as a meeting room booking system, a Helpdesk system, a point-of-sale (POS) system, and more.
- Used AI-assisted tools for coding and code review, reducing development time, and wrote system documentation / skill files (skill.md).

EDUCATION

- Soutsaka Institute of Technology
- Bachelor's Degree in Computer Programming Development
- Graduated: 2024
